

## **FPC 9/9/2026 Meeting Documents**

### **Agenda Item 13: To consider opportunities for funding and projects that can be delivered in 2026/2027.**

Aim: To improve public realm throughout the parish by securing additional funding.

#### **How residents can help?**

FPC is aware of a number of possible projects and funding sources. However FPC is certain that residents will have better and more valuable suggestions for beneficial improvements and funding opportunities. Feel free to contribute your ideas to [clerk@fleggburghparishcouncil.gov.uk](mailto:clerk@fleggburghparishcouncil.gov.uk) or [cllrgammansfpc@gmail.com](mailto:cllrgammansfpc@gmail.com) and we will evaluate what can be achieved. Please refer to the Fleggburgh Neighbourhood Plan as this details residents' priorities.

#### **Possible Projects**

1. Small lengths of formal footway. A possible location on Town Road has been identified by one parishioner to enhance pedestrians' safety.
2. Surfacing improvements including trods. A trod is a simplified and low cost footway/footpath. A possible location outside Fleggburgh House on A1064 has been identified to assist pedestrians walking to and from Filby.
3. Improved signage/information panels to promote walking, wheeling and horse riding on the Norfolk Trails Network.
4. Access improvements to Public Rights of Way/Norfolk Trails Network including gates, stiles, seating, steps, small bridges and passing places.
5. Improved road crossing facilities.
6. Improvements to Public Rights of Way/Norfolk Trails.
7. Flashing Speed Awareness Mobile Signs (SAM2 or new SAM3). These flash up the driver's actual speed rather than fixed signs (VAS) which flash up the speed limit. Note SAM2 and SAM3 can be jointly purchased by FPC with neighbouring parishes and can only be used on roads of 30mph speed limit or less.
8. Improvements you would like to see in Burgh St Margaret village centre, play equipment and churches within the parish.

9. New bus shelters. Residents in Billockby and Clippesby have identified the need for these.
10. New bus stop. Residents have identified the benefit of a bus stop at Broad Farm.
11. Electric vehicle charging points. Destination and/or superchargers.

### **Possible Funding**

100% funding available for some play equipment, subject to successful bid outcome.

50% funding available for projects 1-7 and project 11 above, subject to successful bid outcome.

80% funding available for project 9 above, subject to successful bid outcome.

Project 10 is being investigated by Cllr Adrian Thompson.

Funding available: there is a Unity Trust Bank sustainability funding opportunity for £10,000. There is an Electrical Safety First grant of up to £10,000 available to address electrical installation safety issues.

At present Community Infrastructure Levies and Section 106 monies are not available but may become available in future.

FPC may be able to increase its asset income and free up funding monies.

### **In Summary**

Please let us know of any ideas you have for projects or funding. You don't have to have both – if you have one or the other FPC will evaluate and if appropriate will endeavour to find funding or the project to match your idea.

All funding is subject to a competitive bid process and there can be no guarantees of successful bids.
